The Problem

BFSI innovation slowdown

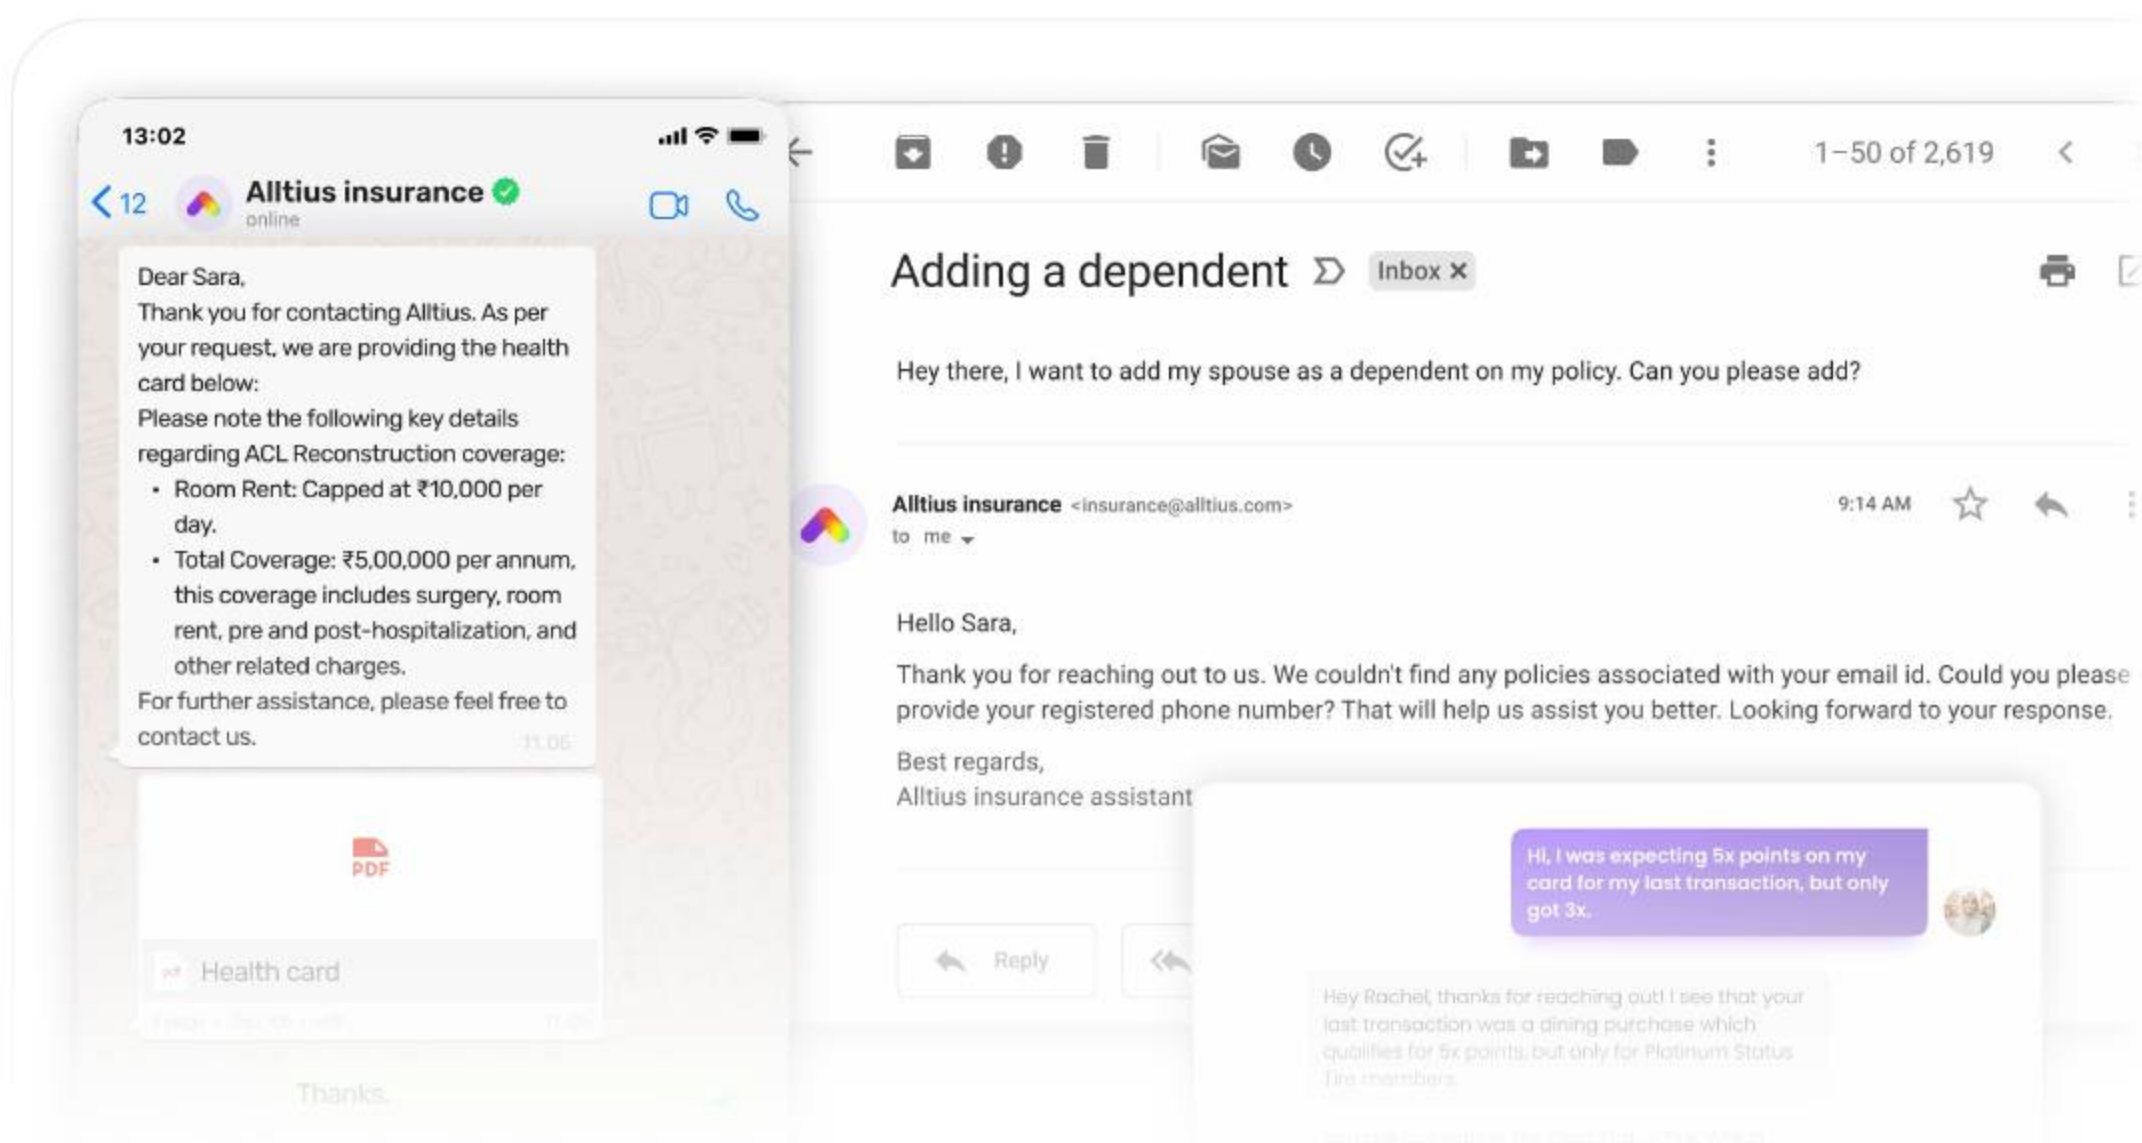

- Overloaded support teams
- Slow, manual workflows
- High compliance risk
- Low conversions & retention

The Solution

Meet Alltius

The AI platform built for BFSI

From day one, you get capabilities that turn scaling challenges into growth opportunities.

- Supercharged customer support**
Resolve 9/10 customer issues instantly across chat, email, voice, and in-app. Handle policy, KYC, and transaction questions in seconds while deflecting 60%+ repetitive queries.
- Regulatory compliance**
Engineered for BFSI with strict KYC/AML and fully audit-ready operations. Fraud detection and compliance intelligence to stay ahead of evolving regulatory demands and mitigate risks proactively.
- AI-driven sales support**
Automate prospecting, follow-ups, and upsell triggers. Real-time agent assist provides pricing, product, and compliance info - boosting conversions before competitors can react.
- Operational scale & speed**
Automate back-office tasks like data entry, reporting, and reconciliation. Go live in weeks, see ROI in under 3 months, and adapt instantly with no-code AI.
- Knowledge search**
Instantly retrieve insights from your entire knowledge base - FAQs, CRM, APIs, documents, and enterprise systems, for faster, smarter decisions.
- Human-like interactions**
AI that mirrors your top sales reps and customer champions. Personalized recommendations that are powered by portfolio, transaction, and behavioral data.
